## **The Values and Value of a Montessori Education Life Skills for the 21<sup>st</sup> Century**

What kinds of life skills will your child need to be successful, happy, healthy and productive in the 21<sup>st</sup> century? Beyond facts, figures and formulas, what will young people need to know to find their way and make their mark in a world which increasingly demands higher order thinking, social intelligence and self-organizing abilities? In this workshop for parents, Jonathan Wolff, international Montessori consultant, teacher and school leadership educator, will illustrate how the Montessori Method not only produces capable scholars, but more importantly, empowers young people to think for themselves, think of others, and think out-of-the box.

**Please join us & bring a friend for a delightful evening with Jonathan!**

**There is no charge for this event.**
