Teachers (All Levels) / Administrators

“Adaptive Teaching: Observation & Experimentation as the foundation of the Montessori Method”

In *The Absorbent Mind*, Maria Montessori writes, “The Montessori teacher is constantly looking for the child who is not yet there.” In one of her lectures she advises, “She must learn how to appreciate and gather in all those tiny and delicate manifestations of the opening life in a child’s soul.” In this interactive workshop, Jonathan Wolff will address the principles and practices of reflective and adaptive teaching, including observation, differentiated instruction, collaborative “best practice inquiry” that leads to bold and innovative experimentation.

Schedule:

8:00AM – 8:30 / Registration

8:30-8:50 / Group Meeting / Dave Carman Music Award given
